2023 Sponsorships

Manhattan Area Habitat for Humanity is an independent affiliate of Habitat for Humanity, International, serving both Riley and Pottawatomie counties. We develop our own resources and funding to build affordable housing in our area. We operate in new construction, rehabilitation, neighborhood revitalization, home repair, and affordable housing advocacy. Our vision is a world where everyone has a decent place to live.

Our latest build won Best in Innovative Design Solutions from Habitat for Humanity, International. To win this award for an affiliate in a community our size is incredible. In this project we brought together Manhattan Area Technical College, Flint Hills Area Builders Association, Home Builders Institute, the Ogden community, and K-State College of Architecture, Planning & Design students and faculty to collaborate in providing affordable net-zero housing to strengthen and sustain communities. We were able to put an incredibly energy efficient home across the street from Ogden Elementary School for a single mom with three kids who went from homelessness five years ago to having \$29,000 in home equity as soon as she moved in. Given the collaborative nature of this project, our next build will be even better!

To maximize the impact we can have on the workforce housing challenges in Riley and Pottawatomie counties and across the state of Kansas we need sponsors to invest in our affiliate at greater levels than ever before. Your sponsorship will go a long way in furthering our vision and also help connect your company with our community in meaningful ways. Our events bring together a diverse group of people to help build our community locally. Our social media audience is broad and engaged.

Please consider sponsoring our next Home Build at the most generous level your budget will allow. We would also ask you to sponsor one or more of our four annual events.

Don't hesitate to reach out for more information or ideas about how we can work better together.

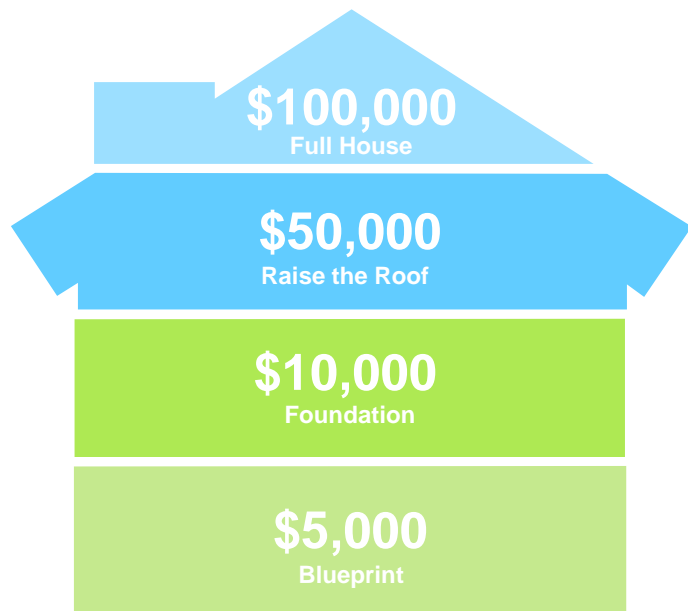

Sincerely,
